Captain or Instructor \$350/day

One way delivery charge \$650,

Rosspoint or Redrock

FRODO

Frodo is a true blue water cruiser/racer. She was built in Finland to the standards of the Baltic and Swans including teak decks and fine interior teak joinery.

The unique feature of the double companionway sets her apart. Helm and navigation in the aft cockpit, with access below to the aft cabin and navigation station which leads to the main cabin area. The forward cockpit has its own access to the galley and salon. When racing jib sheets and halyards are controlled from the centre cockpit. Lots of crew room! When cruising we lead all control lines aft to the helm, leaving the forward cockpit free to sit and relax in. It is an easy vessel to single hand when short on crew.

Frodo has been in captained charter service in Thunder Bay since her trans-Atlantic crossings in 2004/5. Tested on the North Atlantic in September, (St. John's to Lisbon) we know she is able to keep you safe on Superior's rugged north shore, no matter what the fetch and wind strength.

Frodo comes equipped with a full complement of electronics and safety gear, storm jib, 8 man life raft, EPIRB, radar chart plotter, depth and wind, electric windlass with all chain rode, two anchors 45 lbs CQR and 25 lbs CQR. The main is lazy jacked, and the 110% jib is furled. The aft primary winches are electric. The autopilot controls are at the wheel.

Fuel tank, 200L (52 US gal.) Approx. 350 mile range. 40 hp, Gori folding prop.

Holding tank, 100L (26 US gal.)

Fresh water 600L (150 US gal).

Propane BBQ, Force 10 three burner stove-top with oven and a Sea Frost freezer. (ice cube maker too) Seating for 6+ at the salon table.

Accommodation: one couple in the double V-berth cabin, one person in the port salon bunk, and two in the aft cabin singles (5). Lower the salon table and add a double (7). The Engine heat-exchange provides hot water for the shower.

If you are thinking of sailing early in the season an Espar forced air heater is piped to the entire boat, including the dry locker.
